The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18, 19 are rejected under 35 U.S.C. 102(b) as being anticipated by 3320317 ('317).

'317 teach Quaternary ammonium adducts of polyepichlorhydrin (title) with molecular weight of 600-100,00 (column 1 lines 1-25) comprising trimethyl and trialkyl groups. Water solubility is specified (claim 1). Aqueous solutions are disclosed (column 2 lines 49-50).

Applicants argue no pharmaceutically acceptable carrier. However, water is such a carrier, well known even to the layman, for oral use.

(column 6 lines 11-12). A solution is specified (column 6 lines 28-30).

Polyepichlorohydrin is disclosed (example 1).

The claimed oral administration is merely an intended use.

Applicants request reconsideration of the restriction requirement because the examiner has not considered oral administration. However, the examiner has considered this limitation in regard to the claimed carrier in the first rejection.

No claims allowed.
